HOUSTON, TEXAS – March 1, 2008 – It was announced that the Harris County Hospital District has renewed the agreement with Enterprise Systems Corporation as preferred supplier for Nortel Communications Systems components.

ABOUT ENTERPRISE SYSTEMS CORPORATION

Houston, Texas Based Enterprise Systems Corporation services and supports Nortel voice and data solutions including CS1000, Meridian 1, Succession, CallPilot, Symposium, Contact Center, Meridian Mail, Norstar and BCM. Competencies include TDM circuit switched telephony, VoIP and wireless engineering and deployment.

ABOUT HARRIS COUNTY HOSPITAL DISTRICT

The Harris County Hospital District (Harris County/Houston, Texas) was created by voter referendum in November 1965 and formally came into being as a political subdivision with taxing authority on January 1, 1966. Harris County Hospital District provides access to cost-effective, quality health care delivered in a compassionate manner to all residents of Harris County regardless of their ability to pay. The Hospital District is governed by a board of managers appointed by the Harris County Commissioners Court.
