HOUSTON, TEXAS – June, 2006 – It was announced today that Blinn College has selected Enterprise Systems Corporation to upgrade the voice systems network for four of its campuses for VoIP. The project will include upgrading the Option 81C, the CallPilot and the OTM server at the main campus in Brenham; upgrading the Option 61C at the Bryan campus; upgrading the Option 11C at the Schulenburg campus and installing an SRG 50 at the Sealy campus. All Option series switches will be upgraded to Release 4.5 CS1000M systems with Signaling Servers. Additionally, Enterprise Systems Corporation will be maintaining the voice systems for Blinn College. Enterprise Systems Corporation was awarded the project after a very intensive RFP process that included such competitors as AT&T and Verizon.

## ABOUT ENTERPRISE SYSTEMS CORPORATION
