HOUSTON, TEXAS – September, 2005 - Enterprise Systems Corporation announced today that a Nortel BCM 200 and the new Nortel Digital Mobility Wireless solution have been deployed for General Welding Works' new Houston Ship Channel facility.

"The Digital Mobility Wireless solution gives General Welding the capability for managers and employees to traverse the enormous manufacturing bays with communications capabilities that were flat out impossible just a couple of years ago. The range and quality is simply outstanding" says Mark Faijkus of General Welding.

## ABOUT ENTERPRISE SYSTEMS CORPORATION

Houston, Texas Based Enterprise Systems Corporation services and supports Nortel voice and data solutions including Meridian 1, Succession, CS1000, CallPilot, Symposium, Meridian Mail, Norstar and BCM.
