HOUSTON, TEXAS – December 12, 2006 – It was announced today that Kelsey Seybold Clinic has selected Enterprise Systems Corporation to upgrade the voice systems network for four of its campuses to VoIP platforms. The project will include upgrading an Option 81C to CS1000, a CallPilot to Meridian Mail migration and the Symposium Contact Center Server; an Option 81C to CS1000/Fiber Network Fabric; an Option 61C to CS1000 and an Option 11C to current release. All large Option series switches will be upgraded to Release 4.5 CS1000M systems with Signaling Servers.

ABOUT ENTERPRISE SYSTEMS CORPORATION

Houston, Texas Based Enterprise Systems Corporation services and supports Nortel Networks voice and data solutions including CS1000, Meridian 1, CS1000, Succession, CallPilot, Symposium, Contact Center, Meridian Mail, Norstar and BCM. Competencies include TDM circuit switched telephony, VoIP, extensive Contact Center and wireless engineering and deployment.

ABOUT KELSEY-SEYBOLD

As famous for the NASA luminaries they treated as they were for practicing preventive medicine, Kelsey-Seybold Clinic had its beginning over 50 years ago when Drs. Mavis P. Kelsey, William D. Seybold and William V. Leary decided to leave the Mayo Clinic and build their own group practice. Today, Kelsey-Seybold Clinic combines the experience and expertise of more than 300 physicians providing primary care and specialty care at more than 18 clinic locations throughout Houston. Kelsey-Seybold Clinic cares for over 300,000 patients, including members of managed care plans, employer groups and the National Aeronautics and Space Administration (NASA).
