HOUSTON, TEXAS – August, 2004 - Enterprise Systems Corporation announced today that a Nortel Networks Option 81C has been successfully installed for KFORCE in Tampa, Florida. The installation involved the graceful replacement of two Meridian 1 Option 11C Cabinet systems with a single Meridian 1 Optino 81C Multi-Group system. KForce had out-grown the two networked Option 11C's and was seeking a solution that would enable them to retain the existing investment and the robust feature set of the Nortel Networks Meridian 1.

Additionally a Meridian Mail EC was installed to provide Voice Messaging capability.

## ABOUT ENTERPRISE SYSTEMS CORPORATION
